Maui April 2015 Statistics

Brief Maui Statistics Overview:

NOTE: Our statistics program previously indexed the southernmost portion of South Kihei Rd. – Keawakapu Beach (TMKs in 2-2-1- Plat 10) as being “Wailea” whereas it is really “Kihei”. This has been corrected and will be reflected in all reports produced going forward including historical sales in our Statistical Reports (1993 to present). This only affected area allocations, not monthly or annual totals.

Page 4 - April's Sales Unit Volume – Residential sales held steady at 85 homes sold while Condominium sales declined to 104 units sold. Land sales came in at 12 lots sold.

Page 5 - April's Median SALES prices –The Residential median price settled back to \$575,000 while the Condo median price declined to \$407,500. Land median price increased to \$417,500.

Page 6 - Days on Market, Residential homes = 105, Condos = 113 DOM, Land = 161 DOM.

(General DOM Note: this is the average DOM for the properties that SOLD. If predominantly OLD inventory sells, it will move this indicator upward, and vice versa. RAM's Days on Market are calculated from List Date to Closing Date [not contract date], including approximately 60 days of escrow time.)

Pages 10 - 14 – “Year to Date Sales” numbers compare only four months, January – April 2015 to January – April 2014. Shorter timeframe (monthly) views do not necessarily reflect the longer timeframe trends. Big percentage changes may be misleading or misunderstood so be careful. **Early 2014 monthly numbers were quite strong making early 2015 seem “a bit pale” in comparison. Anticipate that they will even out as we progress through the year.**

For a more comprehensive view, compare to 2014's Year-End (Dec. 2014) figures available at:

<http://www.ramaui.com/UserFiles/File/Stats/All-December2014.pdf>

YTD - Residential unit sales increased (305 homes sold / +26 units / +9% change YTD), average sold price = \$875,867 (-17%YTD), median price = \$586,000 (0% change YTD) and total dollar volume sold = \$267,139,435 (-9%YTD).

YTD - Condo unit sales decreased (404 units sold / -42 units / -9%YTD), average sold price = \$668,739 (+9%YTD), median price = \$436,238 (+8%YTD). Total Condo dollar volume sold = \$270,170,697 (-1% YTD).

Land – NOTE: Land Lot sales are such a small sampling that statistics in this property class are not necessarily reliable indicators. Land lot sales declined (53 lots / -6 units / -10% YTD change), average sold price = \$568,655 (-14%), median price = \$490,000 (-2%), Total dollar volume = \$30,138,741 (-23% YTD).

Total sales for immediate past 12 months: Residential = 971 (with 12.8% being REO or Short Sale), Condo = 1,160 (7.3% REO or SS), Land = 161 (3.1% REO or SS).

NOTE: 40% of these Sales in the last 12 months have been CASH transactions.

As of May 7, 2015 - Active/Pending-Continue to Show/Contingent status inventory:

	May '15	April	Mar.	Feb.	Jan.	Dec.'14	Nov.	Oct.	Sept.	Aug.	July	June	May '14
Homes	725	747	746	716	672	676	641	646	674	675	688	666	682
Condos	1,024	1,069	1,062	1,049	977	963	890	858	871	900	868	854	856
Land	369	360	383	392	393	397	401	399	407	414	406	405	399

Current Absorption Rate base on this month's Active/Pending-Continue to Show/Contingent status inventory divided by April Sales: Residential = 8.9 months, Condo = 8.8 months, Land = 25.7 months of inventory.

For Absorption Rate enthusiasts who calculate only pure “Active,” (not any pending/contingent) divided by April Sales: Residential 550 “Active”/ 85 Sold =6.5 months. Condo 859 / 104 Sold = 8.3 mos. Land 349 / 12 Sold = 29 months of inventory.

IN A NUT SHELL..... Monthly Residential and Condo Unit Sales numbers bounced up and down the last few months, with Residential and Condo Inventory increasing during the Winter Vacation (High Sales) season. Canadian investors have been big participants in Maui's real estate market, however the current Canadian Dollar exchange rate (.83 US \$) may motivate Canadian investors to sell, not buy.

There is a noticeable bifurcation of the Market Place right around the \$1,000,000 mark. Properties listed just under \$1,000,000 sell quicker, those that are \$20-60,000 over are slower to sell, even with similar condition and on the same street. Obviously more people can afford a less expensive home; however there seems to be a buyer resistance to crossing that 7 digit threshold (sellers take note).

2014 Year-to-Date Median and Average prices were rising across the Residential, Condo and Vacant Land markets despite lower number of unit sales (YTD). First Quarter 2015 took a break from that trend; however that may catch up as we proceed through the rest of the year.

Increased showings and sales, multiple offers on "well priced" listings, hesitant buyers become onlookers..... Window of opportunity is quickly closing for first-time homebuyers (see below). "CASH is King!" when making an offer. For several months approximately 41% of all sales were CASH. Well priced properties are attracting multiple offers making for a quick sale. **Inventories in Residential and Condo classes grow somewhat** as Sale Prices increase. REO (Foreclosures) and Short Sales are dwindling, with any "hidden inventory" (or overhang) backlog slowly trickling onto the market. Mortgage Interest Rates are inching up slightly which may help motivate would-be Buyers to go ahead and buy IF they can qualify. **Savvy Investors are buying with Cash, giving them a strong negotiating position, no financing/appraisal hassles and a quick closing.** While general U.S. economic news looks cautiously hopeful, current World and US events will have ripple effects on cost of living, consumer confidence, Financial and Real Estate Markets. **Rising Sales prices cause some "Owners" to become "Sellers," putting their homes on the market.**

FOR SELLERS: Sharpen your pencil, talk to your CPA and your Realtor® to explore the hidden benefits or consequences. Make no assumptions that will sting later.

To be successful, Sellers need to beat competing properties with better property condition, **realistic pricing,** good marketing, and flexible, creative terms. Days on Market figures show that properties **priced right** will sell in a reasonable timeframe, often with multiple offers. "Priced Right" is still the determining factor.

BEST Deals are selling, while significantly over-priced listings remain un-sold.

Pro-Active Sellers are getting their properties **appraised, inspected and surveyed** in advance to encourage realistic offers from knowledgeable Buyers. This can prevent unanticipated escrow fallout or Buyers whittling your price down during the transaction when previously unknown facts come to light.

FOR BUYERS: Low interest rates prevail; however have started to nudge up and are predicted to rise later in 2015. Buyers should get **Pre-Approved** so they can shop in confidence (fewer last minute disappointments due to non-funding loans). "Short-sales" and foreclosures are still in the marketplace, yet they can be less of a bargain than they seem, requiring more hurdles to leap and more time (often 4-6-12 months) to close, if at all. Be prepared, but BE REALISTIC. Lenders are more stringent on requirements now for loan approval, compared to 2004-2008.

First-Time Home Buyers – Many programs are available..... Attend a First-Time Home Buyers workshop, get familiar with the process, get qualified/approved, do your homework to get your own home. Many current owners **never thought they would be able to own** until they attended a workshop, discovered they could own a home, and are glad they did.

The low point in the market has passed, so check it out carefully NOW, don't delay. The opportunity is fading quickly. If you can't buy now, start saving your down payment for the next market cycle.

Disclaimer: Zooming in on the figures of a specific geographic area or property type may lead to different conclusions that looking at the overall view.

Maui's market place is much smaller than Oahu's, and a few high or low sales have a greater effect on the statistical numbers without necessarily indicating a big market swing one way or another.
