 Aloha all!

Attached are the **Maui January 2011 Sales Statistics**

Brief Maui Statistics Overview:

Pages 4 - January's Sales Volume – December 2010 figures reflected a push to close transactions by year's end. As a result, January's Residential Sales declined to 54 homes sold, while Condo Sales declined to 87 units sold. Land sales came in at 9 lots sold.

Page 5 - January's Median SALES prices – Home median prices rose again to \$495,415 and Condo median prices declined to \$295,000. Land median price was \$300,000.

Page 6 - Days on Market for Residential homes = 112 DOM, Condos = 180 DOM, Land = 240 DOM. (General DOM Note: this is the average DOM for the properties that SOLD. If predominantly OLD inventory sells, it can move this indicator upward, and vice versa. RAM's Days on Market are calculated from List Date to Closing Date [not contract date]. As such, it includes approximately 60 days of escrow time.) Also – Short Sales transactions can often take 4-6 months to close thereby extending the marketplace's average DOM.

Pages 10 - 14 – "Year to Date Sales" numbers only compare January 2011 to January 2010. Short timeframe (monthly) views do not necessarily reflect the longer timeframe trends. Better overview is available from these pages at the end of each year such as 2010's Year End (Dec. 2010) available at: <http://www.ramaui.com/UserFiles/File/Stats/All-Dec2010.pdf>

Year to Date: Comparing January 2011 to January 2010 Residential unit sales rose (+13%), average sold price = \$602,978 (-19%), median price = \$495,415 (+7%) and total dollar volume sold = \$32,560,829 (-9%).

Condo unit sales increased (+16%), average sold price = \$423,339 (-20%), median price = \$295,000 (-27%). Total Condo dollar volume sold = \$36,830,525 (-7%).

Land – NOTE: Land Lot sales are such a small sampling that statistics in this property class are not necessarily reliable indicators. Land lot sales increased (-25%), average sold price = \$368,792 (-25%), median price = \$300,000 (-42%), Total dollar volume = \$3,319,126 (-43%).

Also, total sales for immediately past 12 months: Residential = 818, Condo = 1,160, Land = 124.

February 11, 2011 - Active/Pending/Contingent status inventory:

IN A NUT SHELL..... the good, the bad..... AND THE ROAD AHEAD

A push to close transactions by Dec. 31, 2010 showed a bump in sales unit numbers for that month and a corresponding decline for January 2011 closings. Some Buyers or Sellers involved in a transaction either rushed the sale to close in 2010 or chose to close in 2011 for any variety of tax (or other) reasons.

Anecdotal evidence from Agents, Lenders and Escrow personnel indicating strong buyer-showing activity is now evidenced in actual reported sales. Residential and Condo inventories have declined somewhat and include many short sales and REO (bank owned) properties which will need to be absorbed as sales before we can move ahead to a more normal marketplace. Interest Rates are remaining near historic record lows which may help motivate would-be Buyers to go ahead and buy IF they can qualify.

FOR SELLERS: Sellers who don't really need to sell (just "fishing?") should stay off the market, and clear the marketplace for those who REALLY have to sell. **UNLESS- you are motivated to Upsize, Downsize or Upgrade – While selling now will net less, your next property will cost less. Sharpen your pencil, talk to your CPA and Realtor® to explore the hidden benefits or consequences. Make no assumptions that will sting later.**

To be successful, Sellers need to beat competing properties with better property condition, **REALISTIC pricing**, good marketing, and flexible, creative terms (Seller Second Loan, Agreement of Sale, Lease-with-option-to-buy, and Sale-with-lease-back to seller). Days on Market figures show that properties priced right will sell in a reasonable timeframe. "Priced Right" is still the determining factor.

BEST Deals are selling, everything else is getting old.

Pro-Active Sellers are getting their properties **appraised, inspected and surveyed** in advance to encourage knowledgeable offers from realistic Buyers. This can prevent unanticipated escrow fallout or Buyers whittling your price down during the transaction when previously unknown facts come to light. **Unrealistic Sellers** continue to be **ignored** by the market and miss current opportunities that later become woefully apparent. They may even end up in a Short Sale or Foreclosure situation that could have been avoided.

FOR BUYERS: Low interest rates may start to inch up. Buyers should get Pre-Approved so they can shop in confidence (fewer last minute disappointments due to non-funding loans). More "short-sales" and foreclosures are happening in the marketplace, yet they can be less of a bargain than they seem, requiring more hurdles to leap and more time (often 4-6 months) to close, if at all. Be prepared, but BE REALISTIC. Lenders are much more stringent in requirements for loan approval.

First-Time Home Buyers – While the Tax-Credit program has expired, many other programs are available..... attend a First-Time Home Buyers workshop, get familiar with the process, get qualified/approved, do your homework to get your own home. Many current owners **never thought they would be able to own** until they attended a workshop, discovered they could own a home, and are glad they did.

This low point in the market is your rare chance, so check it out carefully.

Disclaimer: Zooming in on the figures of a specific geographic area or property type may lead to different conclusions than the overall view.

Maui's market place is much smaller than Oahu's, and a few high or low sales have a greater effect on the statistical numbers without necessarily indicating a big market swing one way or another.

For questions regarding today's market, please call RAM 2011 President, Sarah Sorenson at 808-283-3969.
